

# RIVERTOWN

## VENDOR AND LANDSCAPING REPORT

### RIVERCLUB AMENITY

The wave of the future is coming, and it's Pickleball! Our team is diligently working through the implementation of temporary Pickleball courts at the RiverClub. Once your game is done, head on up to the patio to enjoy the new patio cushions we are in the process of having reupholstered.

### YELLOWSTONE REPORT

Teams are hard at work trimming back grasses for winter, and making sure irrigation is set for minimal watering during the colder season. Treating weeds is a constant battle, and Yellowstone is winning! The annuals they planted for the holiday, are doing great. Lastly, irrigation clocks have been put in rain delay to prevent any damage from the impending freeze coming this week.

### RIVERHOUSE AMENITY

This December we are hard at work making your Amenities as beautiful as possible for the holidays.

We are excited to announce we are finalizing our upgrade of the gym equipment at the RiverHouse while also upgrading to a rubberized floor.

As all the Christmas trees are going up around RiverTown, sadly one of our large Ligustrum trees toppled down, damaged beyond repair. Our landscape provider was able to remove and replace.

### COMMON AREAS

New upright spotlights were replaced in our southern roundabout, replacing the severely damaged versions.

Numerous outlets around the community have been replaced to ensure Holiday Lights are shining bright!

The sidewalk joints on Sternwheel and Rambling Water have been grounded down to remove any tripping hazard.
